

# APNIC

The Future of Internet Infrastructure Panel

Jia-Rong Low

Director General

27 Nov 2024

## Challenge

### **Internet Governance ecosystem under unprecedented pressure**

- Regulation
- RIRs under the spotlight
- Multistakeholder model – does it still work?

# What is APNIC?

## Support the growth and development of the Internet through the allocation of number resources

- **Registry** (also provide members with service and tools)
- **Internet Development** (IPv6, RPKI, IXPs, NOGs)
- **Knowledge exchange space** – relevant issues are discussed
- **Policy Development space** – relevant and timely, key stakeholders make policy
- **Responsible member of Internet ecosystem** – world-class, well-managed organisation (accountability and transparency)
